  - If yes, explain the impact and the estimated cost:

*The Board Bill increases water rates and related service charges administered by the Water Division, which would affect Water Division Special Fund revenues. The bill also establishes administrative requirements related to affordability-rate eligibility determinations, recertification, repayment agreement monitoring, enforcement, and annual reporting obligations.*

*However, the Board Bill does not provide customer usage assumptions, customer counts, anticipated affordability-rate participation, delinquency activity projections, staffing plans, revenue estimates, or administrative cost projections; therefore, the total fiscal impact cannot be determined from the Board Bill language.*

- Does the bill create a program or administrative subdivision?  Yes  No
  - If yes, then is there a similar existing program or administrative subdivision?  Yes  No
  - If yes, explain the how the proposed programs or administrative subdivisions may overlap:

- Describe the annual operating, equipment, and maintenance costs that would result from the proposed bill, as well as any funding sources:

*The bill may result in increased annual operating costs associated with implementation and administration of revised rate structures, affordability eligibility review, customer compliance monitoring, and required reporting activities. No equipment or maintenance costs are identified in the Board Bill language.*

*Funding would be supported through Water Division revenues generated by the revised rates and related service charges; however, the Board Bill does not provide sufficient detail to quantify the amount.*
